

## TECHNOLOGIES

At SETnology, we provide online and offline services to Clients, Customers and Partners who value the services and products we offer, therefore we pursue ideas to improve these conveniences we deliver, by developing software or partnering with other companies so that we may license their software to improve our existing technology.

Being a responsibly company, we work to make sure any innovation is balanced with the appropriate level of privacy and security for our users. Our [Privacy Policy](#) help guide decisions we make at every level of our company, so we can help protect and empower the users who patronize our offerings and entrust us with their privacy details.

We will be periodically adding updates in this Partners and Technology area, if or whenever any of the companies we partner with requires any specific guidelines be known to any users of our websites, portals, services or products.
